

Ovarian ultrasound and artificial insemination in dogs

Alain Fontbonne, DVM, PhD, Dip. ECAR

Alain Fontbonne has been teaching carnivores reproduction for the past 25 years. He has been involved a lot in ovulation detection and insemination in dogs and wild felids. He has been invited to lecture or organise practical workshops in many countries including Europe, South and North America, Russia, China and Australia.

Catharina Linde Forsberg, DVM, PhD, Dip. ECAR

Prof. Linde Forsberg has been involved in research in canine reproduction since 1973. Her research results on artificial insemination and preservation of dog semen are today used with great success on a global basis in assisted reproduction of the dog.

Date: **September 27th, 2018**

Registration fee: **400€**

Lectures and practical sessions included in the price
Inscription: **www.esdar.org**

Places are limited

Pre-conference program:

7:45	Meeting at train station (<i>train leaves at 8:15</i>)
8:30	Opening
9:00 - 10:30	Use of ovarian ultrasound and endoscopy in canine gynaecology - Trans-cervical insemination in the bitch by different procedures (<i>lecture</i>) <i>Alain Fontbonne</i> , Alfort Veterinary School (<i>Paris, France</i>) <i>Catharina Linde Forsberg</i> , Swedish University of Agricultural Sciences (<i>Uppsala, Sweden</i>)
10:30 - 11:00	Coffee break
11:00 - 13:30	Trans-cervical insemination (<i>endoscopic and scandinavian catheter</i>) /ovarian ultrasound (<i>practical demonstration</i>)
13:30 - 15:00	Lunch break
15:00 - 18:30	Practical session (<i>hands-on lectures</i>)
18:45	End of session (<i>train leaves at 19:15</i>)
